BETAMMUNE™

BETAMMUNE™ is a physician quality Beta 1,3 Glucan, which is a particulate polyglucose compound derived from the cell wall of baker's yeast, *Saccharomyces Cerevisiae*.

There is **substantial documentation** by leading researchers at prestigious institutions such as Harvard Medical School, Tulane University School of Medicine and McGill University regarding the promise of Beta Glucan. Beta Glucan elicits broad anti-infective effects. **Protective benefits of Beta Glucan have been established against a wide range of microorganisms in a laboratory setting**, including bacteria, fungi, viruses and parasites. *Staphylococcus aureus*, *Escherichia coli*, *Candida albicans*, *Pneumocystis carinii*, *Listeria monocytogenes*, *Leishmania donovani*, *Herpes simplex* and *Ascaris suum*, are just part of a list against which the protective benefits of Beta Glucan has been established.

Over 1,000 studies have shown that high quality Beta Glucan:

- ◆ is a potent macrophage activator that can work synergistically with antibiotics
- ◆ possesses powerful anti-fungal benefits
- ◆ is effective against viral hepatitis
- ◆ has protective benefits against radiotherapy
- ◆ is an excellent wound healer
- ◆ possesses anti-oxidant properties

Many more beneficial applications of Beta Glucan are demonstrated within the scientific literature.

WHO MAY BENEFIT FROM USING BETAMMUNE™?

- ◆ Individuals with challenged immune systems
- ◆ Those with acute and chronic health concerns
- ◆ Individuals with poor dietary habits
- ◆ Those who are experiencing physical and/or emotional stress
- ◆ Individuals who are undergoing wound healing from surgery or injuries
- ◆ Those who have been exposed to radiation as well as ultraviolet and electromagnetic exposure
- ◆ Those desiring prevention and maintenance

Supplement Facts

Serving Size: One Capsule

One Capsule Contains:

Beta 1,3 Glucan.....500mg.*

* Daily Value not established

Other ingredients: Gelatin.
