

ADIPO-LEPTIN BENEFITS™

To provide the most comprehensive support for weight management, you need more than the standard metabolic health support.* Special attention should be paid to the endocrine aspects of metabolism and appetite in addition to normal fat absorption, use and storage. Supporting a healthy balance of leptin and ghrelin is essential to providing a long term weight management strategy for your patients. Adipo-Leptin Benefits™ offers the right evidence-based ingredients to make that strategy work.* With green coffee bean extract, brown seaweed, WellTrim® iG (IGOB131®) African Mango seed extract and GreenSelect® Phytosome™, Adipo-Leptin Benefits™ has everything you need to break through weight loss barriers.*

LEAN BENEFITS™

This straightforward combination of two clinically proven ingredients serves as a healthy weight management strategy and metabolic support product by focusing on the optimization of fat absorption, utilization and storage.* The Beanblock® in this formula is a well-researched ingredient that supports normal alpha-amylase inhibition, while the GreenSelect® provides support for thermogenic activity.*

Beanblock® offers a reduced serving compared to competitors, supporting better patient compliance.* It also supports normal ghrelin secretion, and offers a defined ratio between Phaseolamin and Phytoagglutinins (the two main actives of this extract), which appears to significantly contribute to the overall intestinal tolerability of the product.*
