- 750 mg of turmeric (95% curcuminoids) enhanced with BioPerine® for systemic use*
- Synergistic combination of holy basil and ginger root*
- Black cherry extract and FoodState® cranberry are high in anthocyanins*

40154 - 90 tablets

A Healthy Response
Healthy inflammation is necessary for the body to function properly and facilitating a healthy inflammatory response is key to maintaining optimal health.* Inflama-Complete is a comprehensive botanical supplement designed to maintain already normal inflammation levels.*

Complete Formula For Optimal Health
In order to provide the best supplement to support a healthy inflammatory response, the key ingredient to include is turmeric.*

Inflama-Complete features 750 mg of turmeric, standardized to 95% curcuminoids, while also featuring two additional botanical ingredients - holy basil and ginger. These three ingredients work synergistically to support healthy levels of key enzymes and inflammation in the body.* In order to stay true to our commitment to whole food, we’ve included black cherry and FoodState cranberry extract to round out this complete formula.
