Candida Multi-Strain Formula

Uses

Temporarily relieves symptoms due to overgrowth of *Candida albicans* yeast such as: yeast infections, thrush, nail fungus, constipation, headache, nausea, itchy skin, fatigue, diarrhea, flatulence, forgetfulness, sleeplessness, and cravings.

Directions

One 8-ounce bottle of Candida Multi-Strain Formula provides a 16-day supply for an adult. It is nearly taste-free and should be taken two times a day on an empty stomach, before breakfast and at bedtime. An adult dose is 1 capful. A child's dose is ½ capful. In acute cases, Candida Multi-Strain Formula may be required for a short period (days to weeks). In chronic cases, Candida Multi-Strain Formula may be used for longer periods (weeks or months) to establish balance. Once balance has been achieved, some suggested maintenance dosages include using it:

1 to 3 days per week, OR 3 consecutive days per month, OR regular dosage for 1 month, then every 6 months
