

Instructions

Medix4Life Adult Stem Cell Activator products are designed to be part of a total health program of nutrition, detoxification, structural alignment, rest and reflection.

- Medix4Life products contain regulatory peptides obtained from natural sources using Nanotechnology which re-establishes cellular communication and activates adult stem cells.
- **Dosing: 1-20 drops a day. Mix in 2 to 3 oz. of water and hold in mouth for 30 seconds but not under the tongue. Take 15- 30 minutes apart and away from food or supplements. Can take up to 4 products Maximum at the same time - take them 15-30 minutes apart for best results.**
- Acute Conditions 10 drops 3 times a day (TID)
- Chronic conditions 15 drops 2 times a day (BID)
- Children under 100 lbs. half dose.

Each person is different in regards to detoxification capacity. These products create detoxification via cellular repair and turnover. Dose accordingly.

These preparations are nontoxic and do not have allergic responses in long term applications. These are not intended to diagnose, treat, cure or prevent any disease, only to support the body's natural processes. These statements have not been evaluated by the FDA.
