

# TRANSFORMATION

# protease 375K

## Supplement Facts

Serving Size 1 Capsule  
Servings Per Container 60

Amount Per Serving	% Daily Value	
Protease Blend	375,000 HUT	†

† Daily Value not established

Other Ingredients: Cellulose & Water

**Did You Know?** One of the most well-established functions served by oral proteases is the maintenance of normal blood flow. \* Protease 375K™ will also enhance the hydrolysis of food proteins for the increased bio-availability of amino acids.\*

### RECOMMENDED USAGE:

Take one (1) capsule two times daily on an empty stomach with 8 oz. of water. Additional capsules may be taken with meals to enhance the digestion of proteins. Usage may be increased according to individual needs as directed by health care practitioner.

Available in bottles of 60 capsules.

NO FILLERS/NON-ALLERGENIC

## A gentle option for supporting healthy cardiovascular function\*

Assuring optimal protein digestion and proper blood flow is necessary for effective nutrient delivery, a healthy immune response, and the body's natural detoxification processes. Our second highest formula in proteolytic activity with 375,000 HUT per capsule is a good choice for sensitive individuals who would prefer a gentle introduction to protease.\*

- **Protease Blend.** Optimal circulation is dependent upon the presence of effective proteolytic enzymes. Supporting circulation with Protease 375K™ encourages delivery of oxygen and nutrients to the cell for health and vitality, removal of metabolic wastes from the cell, and transport of immune cells throughout the body to help maintain a healthy internal environment.\*
- **Why Choose 375K?** Consider using this formula instead of our Professional Protocol Protease™ to support cardiovascular health for those with an intolerance to bromelain (pineapple) and/or papain (papaya) as well as to promote optimal circulation for individuals who would benefit from limiting calcium intake.\*

**Health Benefits:** Transformation's Professional Protocol Protease 375K™ is a proprietary blend of highly active, GI stable systemic proteolytic enzymes containing no bromelain, papain, or calcium has been designed to support optimal protein digestion and proper blood flow for effective nutrient delivery, a healthy immune response, and timely detoxification.\*
